A Challenging Market

REQUIRES A NEW APPROACH

Our current noisy and competitive market creates barriers to being noticed and create loyal customers.

Powered by Creativity

WITH A CUSTOMER FOCUS MINDSET

The branding process demands a combination of investigation, strategic thinking, design excellence, and project management skills.

It requires an extraordinary amount of patience, an obsession with getting it right, and an ability to synthesize vast amounts of information.

We work closely with you and your team to identify what makes your business unique and relevant in order to best position your brand so it can be found by those looking for it.

The AcornOak Process

In our first meeting, we define the brand essence, purpose and meaning and how it improves your customers' lives.

Our team composed of a graphic designer/brand consultant and a marketing strategist /writer will make the co-creation a safe and consistent process and experience.

Our team delivers

TANGIBLE INSIGHTS AND QUANTIFIED OUTCOMES

Discovery Research & Clarifying Strategy

Using a deep understanding of the marketplace and your customers' desires, we help you clarify your brand strategy.

Designing the Brand Identity

Once the overall strategy is agreed upon, the graphic designer creates design options for elements in the project, such as newsletter, landing page, presentation, full website or brand identity style guide. Typically there are two reviews in the brand design process, then a final version is approved.

Brand Identity & Touch-points

With big creative ideas, we craft your unique identity and the various touch points to build your brand architecture.

Finally the brand architecture is established and final production occurs.

Brand Guideline & Launch

We deliver an easy-to-use and coherent brand guideline book. You are now ready to launch your new brand internally and externally to start a new phase of business growth and improve your customers' lives.
